

Project Management

N´PAS Project System Good Business for our Customers

Our vision is to deliver project competence based on key personnel and a proven management system, in order to assist our clients to reach their goals.

Nordhagen Project The company has more than a decade of project management experience. NP is based in Bergen, with a sister company in Stavanger, Norway.

NP is a small company in strong growth. The company has more than 20 employees and is planning to increase rapidly. The nature of the company is small enough to act very fast, but big enough to take on large projects. In 2012 the company turnover was NOK 121 mill.

Process Planning Nordhagen Projects has established a project manual with “best case” practice of project execution from A-Z.

We do believe that planning through well-defined process are leading to a predictable project execution with opportunities to reach mutual goals.

HSE Nordhagen Projects has a long-standing HSE commitment to the highest standards for the health and safety of our employees, customers, and contractors as well as to the protection of the environment in the communities in which we live and work.

Cost Effective Project Executions with N´PAS Nordhagen Projects has extremely high focus on cost during project executions. Our principle is “every coin counts”. To manage this goal we use our project management system N´PAS to plan and monitor all aspects of the project.

The system is tailor made and revised over several years to get a cost effective project. We are proud that our customers more and more share our passion for this tool.

Dressed for Success Our personnel are the key to a successful project. We have dedicated personnel who have a goal to run successful projects for our customers.

Our concept is to run projects with a combination of committed personnel and a field proven project management system. Our personnel is trained and experienced in our “best case” process.

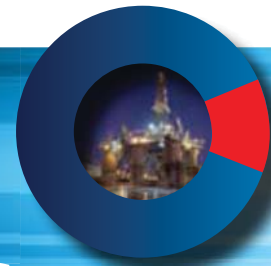

Reduce

Your Total

Project

Cost

Total Project Control:

In Project Management we are aiming for predictable projects. A total management control is the basis for reaching this goal. In addition to saving money we can give trustable forecasts.

Organisation cost saving:

A balance of a strong and at the same time cost effective organization is a challenge in all projects. A reasonable cost may vary between 9-13%. We have proved that we manage to run good projects with just above 7% cost.

Project Cost Control:

A strict cost control is crucial to reduce unauthorized cost in a project. NPAS management system have several functions like electronically imported timesheets and full variation order/request control.

All project work according to
ISO 21500 and ISO 9001
ISO 9001 certificate pending!
